

List of Business EINs for Masked Transcripts

If the taxpayer presents a redacted transcript that masks all but very limited information about an employer, consult this list. It is a partial list of business information (eg, EIN, name and address) commonly used by Tax Help Program taxpayers.

Important! Confirm that the company information below matches the masked info on the transcript before entering it in TaxSlayer. If all redacted information on a transcript is identified and verified, the return can be e-filed unless there are other circumstances that would prevent e-filing.

To suggest additions to the list, please email Janet Herrgesell, Tax Program Manager at janet.herrgesell@foundcom.org.
