

## Printing Returns: Which TaxSlayer Print Set To Use?

When you are closing a tax return in TaxSlayer, you will print the return in order to obtain the taxpayer's signature(s) on **Form 8879, IRS e-file Signature Authorization**, and/or to give the taxpayer a copy of the completed tax return for their records.

1. In TaxSlayer, navigate to the **Submission** screen.
2. Click on the down-arrow to the left of Print Return to access the available print sets.

3. The print set you select will depend on the **Return Type**.
  - **For PAPER returns, use the FC PAPER PRINT SET**  
Print twice: one copy to be mailed to the IRS and one copy for the taxpayer's records.
  - **For E-File returns, use the FC E-FILE PRINT SET**  
Prints one copy of **Form 8879** to be signed by the taxpayer(s) and one copy of the complete tax return for the taxpayer's records, including **Form 8879**.
