

When a Taxpayer Has Multiple 1095-As

A taxpayer may come to the Tax Help Program with more than one **Form 1095-A** for household members who are enrolled in Marketplace coverage and will be listed on the tax return.

In these situations, follow the instructions outlined in the graphic to combine **Form 1095-A** entries for TaxSlayer input.

Note: If **Column B** is blank and the tax return is for 2018 or later, use the tool at [Health Coverage Tax Tool](#) and click on **Get Started** to **Figure out your premium tax credit.**
