

Using Prior Year Tax Slayer Returns to Verify SSNs/ITINs

- For returns prepared anytime beginning January 2017 for tax years 2016, 2017, 2018, 2019 or 2020.

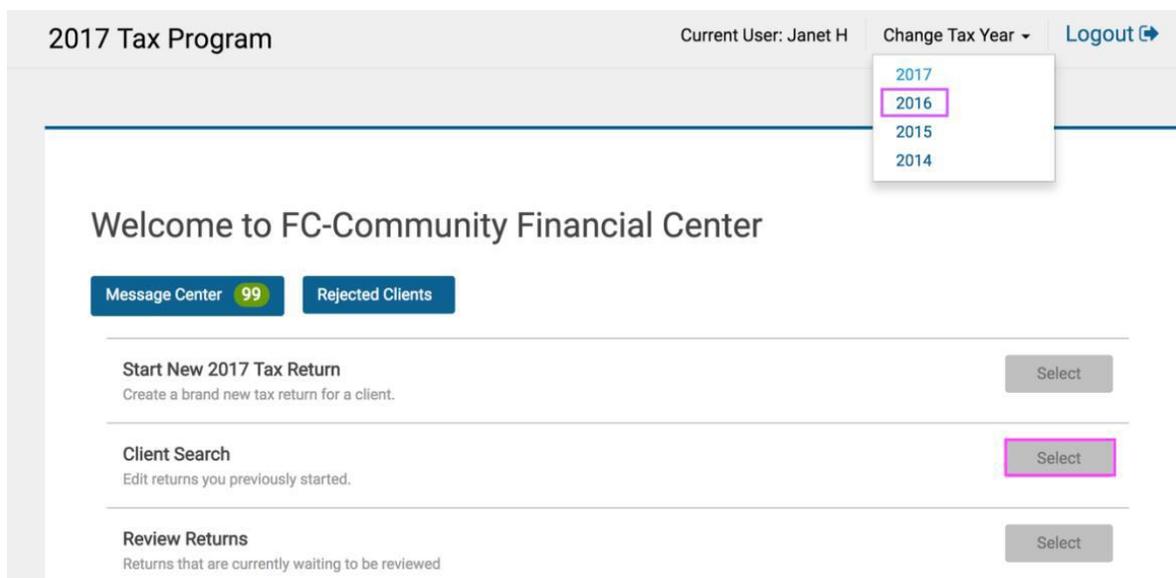

If the taxpayers' tax return (for tax years 2016-2020) was prepared in January 2017 or later and was **e-filed and Accepted**, we may be able to verify the SSN/ITIN. If we locate a tax return in our tax software marked as e-file Accepted, we can prepare and e-file a return (without other SSN/ITIN proof) for anyone listed on that tax return. The assumption is that in order to prepare and e-file a return in that prior year, the taxpayer had to provide SSN/ITIN proof. A prior year return Accepted by the IRS is proof that the names, SSNs/ITINs, and dates of birth are correct on that return, enabling us to prepare tax returns for the clients without seeing the social security or ITIN card each year. Returns marked as **Paper** in Tax Slayer may **NOT** be used to verify SSNs/ITINs.

To do this, log into the TaxSlayer site the return was prepared at and locate the return.

The screenshot shows the login interface for the 2017 Tax Program. At the top, it says "2017 Tax Program". Below that is a "Login" heading. There are two input fields: "Username" and "Password". A blue "LOGIN" button is positioned below the password field. At the bottom, there are two links: "Forgot username" and "Forgot password".

Make sure to search within the correct tax year.

The screenshot shows the dashboard for the 2017 Tax Program. At the top, it says "2017 Tax Program" and "Current User: Janet H". There is a "Change Tax Year" dropdown menu with a "Logout" link. The dropdown menu is open, showing the years 2017, 2016 (highlighted), 2015, and 2014. Below the header, there is a "Welcome to FC-Community Financial Center" message. There are two buttons: "Message Center 99" and "Rejected Clients". Below that, there are three sections: "Start New 2017 Tax Return" (Create a brand new tax return for a client.), "Client Search" (Edit returns you previously started.), and "Review Returns" (Returns that are currently waiting to be reviewed). Each section has a "Select" button.

Look up the specific return.

If and only if the status says ACCEPTED can we prepare a return for the tax members listed on that return without seeing SSN/ITIN proof. If the tax return status for that prior year says anything other than ACCEPTED, the taxpayer will have to provide SSN/ITIN proof for each member of the tax household again this year in order for us to prepare the return.

Print the main info page and highlight the names and SSNs of everyone on the return for that year and write "Accepted" somewhere on the page along with the date and your initials or volunteer ID. Anyone not included on this page will have to provide separate SSN/ITIN proof before being included on the new return. (We encourage volunteers to make a copy of all social security and ITIN cards presented at intake regardless of whether we can verify the numbers through this process.) Please also note we will *always* still need to see a photo ID for the taxpayer and spouse.
